

PR3713330: IBus

American Embassy Colombo has a requirement to convert a Toyota Coaster Bus to a mobile Internet Bus – i.e. IBus.

SCOPE OF WORK

Interior Design

- Remove old seats, Remove additional metal boxes on the floor, redo carpeting
- Install TV and TV brackets in front of the bus roof, behind the driver seat
- Put UV cut tinted stickers and possible curtains to cut down sunlight
- Install LED clear lights (White) and these lights will powered by Solar panel but optional to switch on with generator power or internal battery power
- Make space for the Generator in the luggage compartment (behind the bus)
- Extra space arrangement for Safety Box (remove left side last seat and keep that space 3Ft x 3Ft for safety box)
- Install slim type rounding chairs (check the available space and leave a walking gap in middle)
- Install internal speaker system and input jack should be connected to the TV
- Install foldable tables with mat top (non-slippery top) (check the proposed option 1 and 2 seating/table arrangements)
- Table level should be 34 inch above bus floor level so few inches of side glasses should be covered up to that level to fix tables
- Electric cabling - cabling the bus with power sockets for each table. We will need 20 power pointers. Solar panel cabling. Also TV should be powered using this and new AC system should be installed and cabled.
- Network cabling – WiFi Router cabling and possible Satellite upgrades cabling
- Install 2400 BTU A/C unit which can be powered by the portable generator (DO NOT REMOVE EXISTING INTERNAL A/C)
- Back-up 220V power input cable to run entire system if generator fails
- Power sockets in the bus should be made to run using bus' battery even if generator fails
- Do not block emergency exit door

Example Chair Designs

Example Table Designs

Example power socket Designs

Exterior Design

- Minimize the painting and go for a sticker decoration
- Windows should be covered with transparent stickers (outside view transparent, but you cannot see inside the bus thru the sticker)
- Color theme is Red and White but Blue can be mixed.
- Different US signs will be used Eg: Statue of liberty
- Install reverse/side cameras
- Possible 3rd part advertising spots behind the bus

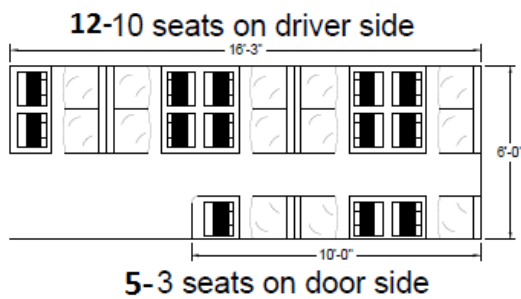

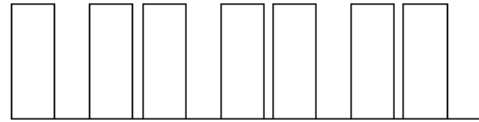

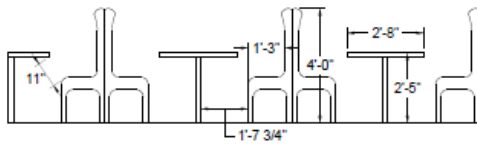

Interior Design – Sample pics

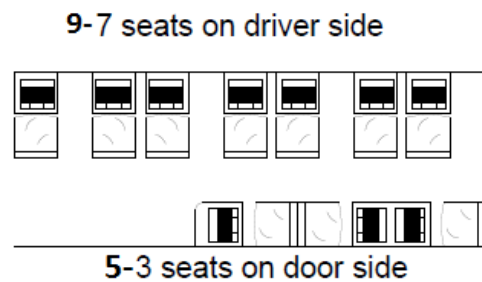

PROPOSED I BUS SETUP

OPTION 01

OPTION 02

Interested parties are encouraged to attend a site visit tentatively scheduled on September 17th, 2014 at 1000hrs at American Embassy, 210 Galle Rd, Colombo 03.

Participants are required to email the following details by 16th September, 2014 by 1000hrs in order to arrange access to the Embassy premises:

- Company name:
- Full name of the participant (maximum 2 personnel per company):
